SCOPE OF WORK
DESCRIPTION OF APPROACH, METHODOLOGY, MILESTONES AND SCOPE OF SERVICES.

CONTEXT

1. PPCL is commissioning 1371 MW Combine Cycle Power Project at Bawana and proposed to commission 750 MW Combined Cycle Power Project at Bamauly. PPCL is keen on taking Gas based combined Cycle power project through VCS, CDM process and get it registered as VCS, CDM Project activities.

2. Keeping this context in view, set below is the scope of work to assist in designing, developing, implementing VCS, CDM activities and transacting the carbon credits from the said power project.

SCOPE OF WORK:

3. Preparing the write-up from available feasibility report and Environmental Impact Assessment Transaction and other report for submission of PDD as per requirement.

4. The successful bidder is required to develop the Project Concept Notes (PCNs) in format required for Host Government Approval, Project Design Documents (PDDs) and monitoring and Verification Protocol, which would inter alia, address the requirements of the Kyoto Protocol, the CDM Executive Board’s (CDM-EB), VCS board procedures and the host country sustainable development criteria of the Government of India.

5. The main task will include:
   - Preparatory Work- data information collection, review of Policies.
   - Review Environmental Impact Assessment Report for the project, if available/applicable.
   - Delineate project boundary and identification of leakages.
   - Develop emission baseline.
   - Estimate project GHG emission.
   - Detail monitoring and verification protocol.
   - Estimate Emission Reductions from the Project.
   - Stake holder consultancy work.

6. PPCL would give project related information to the successful bidder. Bidder will source information that is available in public domain related to sector performance and legislative requirements.

ASSISTANCE IN APPOINTMENT OF VALIDATOR (DESIGNATED OPERATIONAL ENTITY):

7. PPCL would appoint a Designated Operating Entity (DOE) for validation of the Project activities. Bidder will assist PPCL in selection of DOE.

HOST GOVERNMENT APPROVAL PROCESS ASSISTANCE;

8. Bidder will assist PPCL in filing the project activities for (Indian) host government approval including assistance in presentations to the Designated National Authority (DNA). Filing for host government requires the project detail to be filled in the required format of PCN along with PDD and submitting them to the Ministry in the required number of copies.

9. Bidder would assist PPCL in defending the project at MOEF/DNA and in the meeting of the inter-ministerial group. Indian DNA encourages project developers to take lead in presentations and discussions and bidder would accordingly fully support the employer and shall follow up with MOEF/MNRE and or other involved Agency for obtaining approval at the earliest.

VALIDATION PROCESS ASSISTANCE:

10. Upon an approved methodology being in place for the Project(s), the PDD will be undertaken for validation. The validation process includes a 30 days public consultation process followed by observations of the validator (including any public comments) in the first validation report. Bidder would assist PPCL in responding to the queries raised in the first validation report for both the Project. If a validator requires any changes to be made to the PDD. Bidder would carry out the changes. The validator will then provide the final validation report along with the revised version of the PDD, if applicable. The validation process needs to be tightly controlled as it can lead to substantial time delays.
REGISTRATION PROCESS ASSISTANCE:

11 The Designated Operating Entity, on behalf of PPCL, will forward the validated project(s) with a request for registration to the Executive Board and the Secretariat. In the event that the project faces a request for review the bidder would assist PPCL to respond to all the queries and clarifications raised by CDM,VCS Executive Board. Bidder would further assist PPCL in case a review is ordered for the project.

MONITORING SYSTEMS EVALUATION ASSISTANCE:

12 It is important that the monitoring plan set out in the PDD is exactly followed in practice and therefore bidder would assist PPCL in evaluating whether the project activity that is being implemented has the monitoring arrangements as per the monitoring plan. Bidder would discuss with PPCL to consider commissioning an Initial Verification exercise where a DOE is appointed to check whether the monitoring arrangements have been implemented according to the monitoring plan in the PDD and suggest corrective action, if any.

VERIFICATION AND CERTIFICATION PROCESS ASSISTANCE:

13 PPCL would need to appoint a DOE for verification and certification of the project activities. Bidder would assist PPCL in drawing up a list of DOE from which PPCL can seek offers and appoint the verification and certification assistance.

14 In accordance with the monitoring plan and data made available to bidder by PPCL, bidder would assist PPCL in preparing a Monitoring Report which would form the basis for the verification and certification agency to carry out the verification process. Bidder would also assist PPCL in site visits conducted by the verification and certification agency. Bidder would also assist PPCL in responding to the queries raised by the verification and certification agency.

15 Similar to the process during registration, the issuance of Certified Emission Reductions becomes final after a request for issuance is made by the DOE alongwith verification and certification reports. CER, VCU are issued automatically at the end of days period unless 3 or more members of the Executive Board request a review of the verification and the request is upheld in the subsequent Executive Board. In the event of a request for review or a review of the verification and certification exercise, bidder would assist PPCL in responding to the queries raised by the Executive Board.

MARKETING OF CERS/VCU PROCESS ASSISTANCE:

16 Bidder would require carrying out a number of transactions on behalf of clients. Bidder should have access to the major buyers of Certified Emission Reductions and Verified Emissions Reductions and having assisted clients in negotiating and closing deals with these buyers. Bidder should be aware of their requirements and their preferences.

There are several issues in relation to transaction of emission reductions including the timing of the market, hedging requirements, pricing of CERs, VCU, credit worthiness of the counterparty, stage of CDM,VCS development etc. Bidder will discuss with PPCL to finalize the CER, VCU transaction strategy including the timing to the market, what volumes to sell forward, the method of sales (Open versus limited tender) etc.

In line with CER, VCU transaction strategy, bidder would assist PPCL during the transaction of these certificates. Bidder would prepare a list of potential buyers and carry out a market sounding to evaluate buyer interest. He would prepare a preliminary information memorandum setting out the terms and conditions of the transaction, timeless and tender rules. Bidder would provide PPCL the Preliminary Information Memorandum (PIM) and assist PPCL in circulating the PIM to the buyers according to the method of sales. In addition, bidder would assist PPCL in signing up non-disclosure Agreement with the parties who have received Preliminary Information Memorandum.

Bidder would assist PPCL in evaluating the responses from the buyers and assist in preparation of a shortlist of buyers to carry out negotiations. Bidder would work in drafting and finalizing a Memorandum of Understanding which would cover the key heads of terms and indicative price. Then assist PPCL in negotiating and finalizing a binding contract for sale and purchase of above certificates, if desired by PPCL.
